

## COMMUNITY HALL : DINING HALL SETUP

- ① Lobby / Pre-Function Space
- ② Community Room
- ③ Dais
- ④ Catering Kitcher
- ⑤ Green Room
- Ⓜ Public Restrooms
- ⓔ Emergency Exit

### Harmony With Nature

The basic layout of the design incorporates the principles of feng shui in the site planning, landscape design, basic building configurations and the arrangement of uses within the two buildings. Color, plants, water, and living creatures, such as the fish in the beautiful aquarium, were used to further the connection with nature. Generous landscape areas and buffers such as the garden walls of the Community Hall insulate the interior spaces from the distractions of the outside world.

## COMMUNITY HALL : AUDITORIUM SETUP

- ① Lobby / Pre-Function Space
- ② Community Room
- ③ Dais
- ④ Catering Kitcher

- Ⓜ Public Restrooms
- ⓔ Emergency Exit

### Gather 'Round

The Community Hall is designed for use as an event space for lectures, parties, performances and classes. Its lobby can serve as a pre-function space while two walled gardens provide outdoor space for larger events, weather permitting. The main hall also serves as the seat of government for city meetings including council sessions.
