ENDORSEMENTS

Time for Change on the Cupertino City Council!

Here is Why

1. **Big developers get special treatment and exceptions** at the expense of city residents.
2. 1.75 million sq. ft. of office space approved at Vallco - **severe traffic problems unresolved while worsening our housing shortage.**
3. **Traffic congestion, school overcrowding and lack of retail concerns consistently ignored.**
4. **School contributions sacrificed** for pet projects, like the empty-shell Performing Art Center - interior and operating cost to be paid by you.
5. **Millions spent on consultants** to justify high density projects. "Community-driven" becomes an empty slogan.
6. **\$\$\$ spent on outside lawyers**, while City Attorney on fully-paid leave under mysterious circumstances.
7. **Big capital projects lacking transparent fiscal impact analysis:** such as \$70M projected for new City Hall.
8. **Bait-and-switch at Main Street:** Removed senior housing. Replaced athletics club with office. Allowed insufficient parkland.
9. Failed to protect City from questionable **SB 35 project. Then approved an even denser Tier 2 Vallco plan.**
10. More committed to ensure hefty Developer profit; **impacts and financial burdens on us ignored.**

Liang Chao will bring change to the City Council by putting the concerns of residents first.
